PROFESSIONAL SUMMARY

Performance-driven Software Engineer with over 4 years of experience specializing in scalable CMS architecture and full-stack web development. Expert in transforming complex design requirements into high-performance digital solutions using **WordPress, React, and Next.js**. Proven track record of optimizing site speed, securing deployments, and integrating third-party APIs for international clients in the UAE and India.

CORE SKILLS

- Languages & Frameworks:** PHP, JavaScript (ES6+), SQL, React.js, Next.js, HTML5, CSS3/SASS.
- CMS & Backend:** WordPress (Expert), Payload CMS, WooCommerce, Shopify, REST API, MySQL.
- Frontend Tools:** Tailwind CSS, Bootstrap, Elementor, Webflow, AJAX, jQuery.
- Architecture & DevOps:** Custom Theme/Plugin Development, CPT UI, ACF, Git/GitHub, Cloudflare, DNS Management, WP-CLI, cPanel.
- Optimization & Design:** Lighthouse Performance Audits, Xdebug, Chrome DevTools, Figma, Adobe XD.

PROFESSIONAL EXPERIENCE

Webolute | *Software Engineer* (Dubai / Remote)

Apr 2025 – Present

- Modern Headless Architectures:** Implementing headless CMS solutions using **Payload CMS and Next.js**, improving frontend load speeds by an estimated 40% compared to traditional monolithic setups.
- International Project Delivery:** Leading the technical execution of high-traffic WordPress projects for the UAE market, focusing on multi-language support (WPML/Polylang) and regional SEO optimization.
- Scalability:** Standardized development workflows by creating reusable component libraries, reducing project turnaround time for new features by 25%.

Buildbyblank | *Software Engineer*

Apr 2024 – Mar 2025

- Full-Cycle Development:** Owned the end-to-end development of custom WordPress themes and plugins, ensuring 100% alignment with pixel-perfect Figma/Adobe XD designs.
- E-commerce Optimization:** Developed and managed robust WooCommerce stores, integrating custom payment gateways and shipping APIs to streamline the checkout experience.
- Performance Engineering:** Executed comprehensive optimization strategies (caching, lazy loading, minification) that consistently achieved Google PageSpeed scores of 90+.

- **Backend Engineering:** Developed complex backend logic for WordPress using PHP and MySQL, focusing on custom post types (CPT) and Advanced Custom Fields (ACF) to handle dynamic data.
- **Database Management:** Optimized SQL queries and database schemas, improving site responsiveness for data-heavy client platforms.
- **Security & Maintenance:** Hardened site security via SSL implementation, CAPTCHA integration, and regular vulnerability audits for a portfolio of 15+ active client sites.

- **Foundation:** Assisted in the development of responsive web interfaces using HTML, CSS, and jQuery.
- **Technical Support:** Collaborated with senior developers to debug frontend issues and perform routine content updates via cPanel.

KEY PROJECTS

Enterprise Headless Commerce Integration

- Engineered a headless storefront using **Next.js and WordPress REST API**, allowing for a highly decoupled architecture that improved security and handled 2x more concurrent users than previous builds.
- **Custom Plugin for Advanced Lead Generation**
- Developed a proprietary WordPress plugin utilizing **AJAX and Gravity Forms** to capture and route leads to a third-party CRM, resulting in a measurable increase in lead processing efficiency.

Multi-Vendor Marketplace Optimization

- Refactored a legacy WooCommerce site's codebase, replacing bloated page builders with lightweight custom templates, reducing the total page weight by 1.5MB.

EDUCATION

- **Master of Computer Applications (MCA)** | 2021
- **B.Sc. in Information Technology (BSc IT)** | 2019

ADDITIONAL INFORMATION

- **Tools:** Bitbucket, BrowserStack, Query Monitor, RankMath, Yoast SEO.
- **Languages:** English (Professional), Hindi (Native).
