MOHIT SEMWAL

Full Stack Developer | WordPress, React.js & Next.js

+91 9634902098 | semwalmohit12@gmail.com | linkedin.com/in/mohit-semwal | Dehradun, Uttarakhand, India

SUMMARY

Full Stack Developer with 4+ years of professional experience building and delivering scalable web solutions for international clients. Expertise in custom WordPress theme and plugin development, WooCommerce, React.js, Next.js, Angular, and headless CMS integrations with Payload CMS. Proven record of improving page load speed by 40%, cutting design-to-development feedback cycles by 30%, and implementing security best practices. Experienced in remote-first, cross-functional agile teams, translating business requirements into maintainable code.

EXPERIENCE

Software Engineer

Webolute

Apr 2025 - Present | Dubai, UAE

- Integrated Payload CMS with React and Next.js front-end applications, ensuring seamless data flow and optimized performance across 5+ concurrent client projects
- Managed and delivered multiple WordPress projects simultaneously, focusing on scalability and business objectives, consistently meeting sprint deadlines
- Contributed to headless architecture implementations, improving site performance scores and enabling faster content delivery for global audiences
- Collaborated with an international team across multiple time zones in a remote-first agile workflow to ship client projects on schedule

Software Engineer

Buildbyblank

Apr 2024 - Mar 2025 | Dehradun, Uttarakhand, India

- Led full-stack WordPress development, including custom themes, bespoke plugins, server-side logic, and database architecture for 10+ agency clients
- Converted Figma and Adobe XD designs into pixel-perfect, fully responsive websites, reducing design-to-development feedback cycles by 30%
- Collaborated with project managers to estimate effort, plan agile sprints, and deliver projects on schedule and within scope
- Implemented WooCommerce stores with custom payment gateway integrations, enhancing client e-commerce capabilities and conversion rates

Associate Software Engineer

Rubico IT

Jun 2022 - Mar 2024 | Dehradun, Uttarakhand, India

- Engineered custom WordPress themes and plugins from scratch using Hook/Filter API, shortcodes, and REST API endpoints, supporting a portfolio of 15+ client websites
- Optimized MySQL database queries and maintained staging and production deployment pipelines via cPanel and Cloudflare, improving average page load speed by 40%
- Implemented security measures including SSL integration, CAPTCHA, spam prevention, and third-party API connections, reducing security incidents to zero
- Developed reusable component libraries and standardized development workflows, increasing team productivity and code maintainability
