## PROFESSIONAL SUMMARY

---

Results-driven Full Stack Developer with 4+ years of professional experience architecting and delivering scalable web solutions for international clients. Demonstrated expertise in custom WordPress theme and plugin development, React.js/Next.js applications, and headless CMS integrations. Proven track record of improving website performance, reducing load times, and implementing robust security frameworks. Adept at collaborating across cross-functional, remote-first teams to translate complex business requirements into efficient, maintainable code.

## WORK EXPERIENCE

---

**Software Engineer** | **Webolute** | Damac Hills, Dubai, UAE *Apr 2025 – Present*

- Integrated Payload CMS with React and Next.js front-end applications, ensuring seamless data flow and optimised performance across 5+ concurrent client projects.
- Managed and delivered multiple WordPress projects simultaneously, focusing on scalability and alignment with business objectives, consistently meeting sprint deadlines.
- Maintained high professional communication standards within a remote-first, international team environment spanning multiple time zones.
- Contributed to headless architecture implementations, improving site performance scores and enabling faster content delivery for global audiences.

**Software Engineer** | **Buildbyblank** | Dehradun, Uttarakhand *Apr 2024 – Mar 2025*

- Led full-stack WordPress development encompassing custom themes, bespoke plugins, server-side logic, and database architecture for 10+ agency clients.
- Translated Figma and Adobe XD designs into pixel-perfect, fully responsive web experiences, reducing design-to-development feedback cycles by 30%.
- Collaborated with project managers to estimate effort, plan agile sprints, and consistently deliver projects on schedule and within scope.
- Implemented WooCommerce stores with custom payment gateway integrations, enhancing client e-commerce capabilities and conversion rates.

**Associate Software Engineer** | **Rubico IT** | Dehradun, Uttarakhand *Jun 2022 – Mar 2024*

- Engineered custom WordPress themes and plugins from scratch using Hook/Filter API, shortcodes, and REST API endpoints, supporting a portfolio of 15+ client websites.
- Optimised MySQL database queries and maintained staging/production deployment pipelines via cPanel and Cloudflare, improving average page load speeds by 40%.
- Implemented comprehensive security frameworks including SSL integration, CAPTCHA, spam prevention, and third-party API connections, reducing security incidents to zero.
- Developed reusable component libraries and standardised development workflows, increasing team productivity and code maintainability across projects.

**Web Developer Intern** | **GiksIndia** | Dehradun, Uttarakhand *Jun 2021 – Dec 2021*

- Built and maintained client websites using HTML, CSS, JavaScript, and WordPress throughout a 6-month hands-on internship programme.
- Developed foundational expertise in responsive design principles, cross-browser compatibility testing, and CMS customisation techniques.

## TECHNICAL SKILLS

---

**Languages:** HTML5, CSS3, JavaScript, PHP, SQL, jQuery, AJAX

**Frameworks & Libraries:** React.js, Next.js, Bootstrap, Tailwind CSS

**CMS & Platforms:** WordPress, WooCommerce, Payload CMS, Webflow

**WordPress Tools:** ACF, Gravity Forms, Yoast SEO, WPML, CPT UI, WP REST API, Elementor Pro

**Database & DevOps:** MySQL, Git, GitHub, Bitbucket, cPanel, Cloudflare, WP-CLI

**Design & Testing:** Figma, Adobe XD, Chrome DevTools, BrowserStack, Xdebug, Query Monitor

**Performance & Security:** WP Rocket, W3 Total Cache, SSL, CAPTCHA, Lazy Loading, CSS/JS Minification

## KEY CAPABILITIES

---

### WordPress Development

- Custom theme and plugin authoring, child themes, full-site editing, WooCommerce store setup, ACF, WPML multilingual configuration, and WP REST API integration.
- Proficient with Elementor Pro, WPBakery, and Beaver Builder for advanced page building and client-editable layouts.

### Performance & Security

- Caching strategies with WP Rocket and W3 Total Cache, image optimisation, CSS/JS minification, lazy loading, and systematic database cleanup.
- Security hardening through SSL implementation, CAPTCHA configuration, spam prevention, and adherence to WordPress security best practices.

### Modern Front-End & Headless Architecture

- React.js component integration within WordPress themes, Next.js application development, Payload CMS as a headless backend, and REST/custom API endpoint development.
- Tailwind CSS utility-first styling methodology and responsive design implementation across diverse device ecosystems.

### DevOps & Hosting

- cPanel administration, Cloudflare DNS management, staging environment configuration, and structured zero-downtime deployment strategies.
- Git-based version control workflows using GitHub and Bitbucket, WP-CLI automation scripting, and agile collaboration practices.

## EDUCATION

---

**Master of Computer Applications (MCA)** 2021

**Bachelor of Science in Information Technology (B.Sc. IT)** 2019

## ADDITIONAL INFORMATION

---

**Languages:** Hindi (Native), English (Professional)

**Nationality:** Indian

**Date of Birth:** 16 May 1998

**Marital Status:** Unmarried
